

Business Analyst and Automation Consultant with 4+ years turning data into decisions for international teams across the US, Canada and Europe. Currently BI + Power Platform lead at CQ Fluency (US), GenAI + MCPs consultant at Wings4U (Czech Republic), and Power BI bootcamp instructor at USMP (100+ students). Pursuing an MSc Business Analytics at Pontificia Universidad Católica de Chile (#1 LATAM). Open to senior / lead roles.

Experience

Automation Analyst · Consultant

Wings4U

2026 — Present

Prague, Czech Republic (remote)

- Consulting for a global B2B Customer Marketing & Advocacy agency serving enterprise tech clients.
- Building custom MCPs (Model Context Protocols) + low-code solutions powering the Customer Advocacy Intelligence stack.
- Packaging AI-driven insights that Wings4U resells to enterprise clients — from advocacy data to revenue-ready deliverables.

Business Analyst

CQ Fluency

2023 — Present

New Jersey, USA (remote)

- Own Power BI dashboards and Power Platform automations for multiple internal teams and Project Managers.
- Python automations (Pandas, MySQL, NumPy) + Power Automate flows for hours reporting — reducing manual tracking overhead.
- Requirements discovery with stakeholders, translating business needs into structured data requirements.

Instructor · Power BI Bootcamp

Universidad San Martín de Porres (USMP)

2026 — Present

Lima, Perú

- Lead instructor: end-to-end curriculum (data modeling, DAX, storytelling, dashboards) for 100+ students.
- Mentoring on real business cases; preparing students to deliver executive-ready reports.

Business Intelligence Engineer

Valia

2022 — 2023

Delaware, USA (remote)

- 60+ visualization reports in Looker Studio; complex PostgreSQL + AWS → BigQuery pipelines at scale.
- Contributed to LLM integrations (Valia's Copilot); connected HubSpot + Google Analytics APIs for marketing reports.

Product Analyst

Ove Decors

2021 — 2022

Montreal, Canada (remote)

- Invoice OCR automation with Power Automate + AI Builder — —95% manual processing time.
- Power BI dashboards on MySQL + web scraping (Amazon, Overstock) for competitive intelligence.
